REASONS FOR ALLOWANCE

Claims 1-7 are allowable. The following is an examiner's statement of reasons for allowance: Regarding claim 1, the prior art does not suggest the method as claimed, including the combination of all the claimed steps, the combination including rotating a threaded member that has left-hand and right-hand threaded portions, one of which portions is threadably coupled to a stationary end of one of the connectors, and the other of which portions is threadably coupled to the latch mechanism of that one of the connectors. Regarding claim 2, the prior art does not suggest the positive locking male BNC connector as claimed, including the combination of all the claimed elements, the combination including the male shell including the threads as claimed, the BNC latch having a second region of external threads of a second handedness opposite the first handedness as claimed, and the barrel having the third and fourth regions of threads as claimed. Regarding claim 3, the prior art does not suggest the positive locking male BNC connector as claimed, including the combination of all the claimed elements, the combination including the male double shell including the threads of a first handedness as claimed, the BNC latch as claimed having a second region of external threads of a second handedness opposite the first handedness as claimed, and the barrel including the third and fourth regions of threads as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
